

**BiH – General Elections 2014****Media Monitoring**

From 1 September 2014, the Media Plan, with the support of the United States Agency for International Development (USAID), the UK Government, the Embassy of the Kingdom of Norway, the National Endowment for Democracy (NED), and the European Union, has monitored nine television channels, three radio stations, six newspapers and four online media outlet. The monitoring included quantitative and qualitative methods of analysis. Quantitative analysis includes a number of numeric measures and indicators that can be counted and analysed, including assessing and producing findings regarding the time or space allocated to each contestant or other relevant political subjects (in the prime time news programmes) and also evaluating the tone of the coverage in which these subjects were portrayed – positive, neutral or negative.

Qualitative analysis evaluates the performance of selected media outlets against ethical and professional standards, such as balance, accuracy, timely, choice of issues, omission of information, advantage of incumbency, positioning of items, inflammatory language etc. The enclosed charts show the coverage of political parties and other relevant subjects in the prime time news programs.

**Explanation of the charts*****Political parties and other relevant subjects***

- The pie charts show the total percentage of airtime allocated to relevant political subjects for each media outlet in the defined period.
- The bar charts show the total number of hours and minutes of positive (green), neutral (white) and negative (red) airtime/space devoted to relevant political subjects by each media outlet in the defined period.
